

Global Climate Change – Are We Steering Towards the Abyss?

**Atmospheric Chemistry – Global Climate Change Discussion Group –
1. Meeting on:**

January 20, 2004; 11:30am – 12:30pm, Flanner Hall 129.

Everybody is welcome and can drop in at anytime

Many factors indicate a change in global climate in the near future. What are the implications? What will happen to our planet? This are just a few questions, we plan to discuss.
